

Diamond reading: Why did animals die at the time when humans came?

- famine struck as humans hunted them
- this could be a reason for extinction.
- Clovis people could have migrated instead of becoming extinct like Diamond says.

Australia: the animals were not afraid of humans.

this might be a reason they were 'killed' or extinct.

* Not enough evidence to determine the truth

Humans migrated: main idea - you can't predict what & where humans do in future.

3 groups: King woman: issue of morality - promiscuous

her way of life (gathering) was the "best"

she generally lived a good-happy life.

Always did what was happy.

Stories of the dreamtime: The Mutjinga has power.

role in society: teacher that taught sacred dances

power abuse: lowering people in - lost it all.

At end it says men have power - misinterpreted as a fairytale - sexist.

Paintings: lighting man - possible fear of not worshipping the symbol

- they could have been scared of destruction of property/death

- Evil yam man that kills women - physical dominance?

- disease with yams?

Hunting seen: celebrating the hunt

- We never REALLY know the truth
