

Tuesday (8/31)

Recorders Notes
Mike's Group

Topic #1: Some things happen before other things

- Example = Gun Powder before guns

#2: Some things only happened in certain places

- Geography is important but the people is also as equally if not more important

#3: Meaning & definitions of words change.

- Society has an incredible impact on views and stances of words and morals. Always constantly changing

#4: Where there is no record there is no history

- Need evidence to make a solid conclusion
- We can only speculate as to what happened with the big bang.

#5: Texts written by powerful people are not the only record

- There were illiterate people who also lived at that time
- Look to other sources besides writing

#6: History is complex

- No one reason for an event to happen

#7: God is hard to document but has huge impact

- God is a spiritual being & no one way to document what happened due to God.

#8: To live without a memory is to lose one's humanity

- You can't forget your past & must learn from it.

#9: Memories can fail and we must recall our past

- As a society + on a personal level we forget some things of our past
- We must recall + learn from our past.

#11: Cause + effect (nothing is harder to prove)

- Finding one event that caused a series of events is virtually impossible to prove.

Change:

- The world is constantly changing, cause + effect

Comparison:

- Differences between cultures

Connection:

- Sort of a Domino effect
