Recorder notes September 21

Diamond

- what does diamond mean by saying fortunes of

history...

- America & Africa ran N/S

Eurasia - E/W

what other influences are diamond not saying  
- other crops could adapt to climates

How might one critique or challenge Spacious Sites

- Diamonds Frequent

- latitude decided what crops grow where

176 - does not talk about just plants but society as

a whole

- traveling people could get sick from different climates

~~Diamond did not talk about Australia~~

↳ might have not fit into his scenario

↳ Australia was not agricultural

↳ spread of agriculture was not just axis based

↳ spread by people wandering

↳ People ran out of food & supplies & switch to ag.

↳ Tied the wheel w/ spread of agriculture

↳ wheels on tops

↳ Land was difficult to have a cart

RESEARCH

Diamonds  
Ultimate & Proximate = use of

→ Major factors

Ultimate

Proximate =

Latitude

Expansion

Population = agriculture

technology (wheels)

Climate/Terrain

Diseases

Geography

Animals domestication

Language & unity

⊗ Proximate are pieces of ultimate

→ Can not change ultimate besides population

→ Proximate is technology

Diamond → why didn't the people become sick

→ domesticated pets = food

Ultimate Cause for Spanish not to become sick

→ Immune to diseases

→ people in America would not have disease/diseases later

Spanish came

→ possible for Spanish to have died from the carrier

diseases but just became immune over time
